Mr. Rodriguez

A couple days ago you took the PHP 5.4 beta test, congrats on your impressive performance on the test.

My name is John David. I'm a Test Development Manager with Brainbench (http://www.brainbench.com) – a subsidiary of CEB (www.executiveboard.com). Because your score indicates that you have great expertise in this area, we would like to offer you the opportunity to assist us with incorporating feedback from this beta test into the final version.

Based on your experience, feedback from the test and the item results from the beta test, you will review and implement changes to the questions, the choices and difficulty level if necessary. For reviewing and incorporating the feedback, the pay is $500. Based on the quality and timeliness of your work, you could also earn a bonus of up to $150. Please note that this is not a full time contract position. Typically the item cleaning takes about 2 weeks for completion however, you would not be working the full two weeks to complete the task.

If this opportunity interests you and you have the bandwidth to complete an in-depth review of 150 or more test items in a week, **please reply to this email with your updated resume or complete the attached contractor qualification form** so that we may add you to our system should you choose to participate.

If you have any questions or wish to further discuss this opportunity please do not hesitate to contact me.

I hope to hear from you soon.

Thank you,

John David
